DETAILED ACTION

Claims 12,14, 20,21 and 27 are currently pending in the instant application.

Applicants have cancelled claims 1-11, 16, 19 and 22-26 and added new claim 27 in an amendment filed on August 27, 2007.

I. Information Disclosure Statement

The information disclosure statement (IDS) submitted on October 9, 2007 is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement has been fully considered by the examiner.

II. Response to Arguments

Applicants' amendment, filed on August 27, 2007, has overcome the following rejections: the rejection of claims 1-11, 14, 19 and 21 under 35 USC 102(e) as being anticipated by Smith et al.; the rejection of claims 1-11, 14, 22 and 23 under 35 USC 112, first paragraph as failing to comply with the written description requirement; the rejection of claims 1-11, 14, 22 and 23 under 35 USC 112, first paragraph as failing to comply with the enablement requirement; the rejection of claim 12 under 35 USC 112, first paragraph as failing to comply with the enablement requirement; the rejection of claims 1-11, 14, 22 and 23 under 35 USC 112, second paragraph as being indefinite and the rejection of claims 6, 10 and 23 under 35 USC 112, second paragraph as being indefinite. The above rejections have been withdrawn.

III. Rejection(s)

Art Unit: 1626

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 21 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. A broad range or limitation together with a narrow range or limitation that falls within the broad range or limitation (in the same claim) is considered indefinite, since the resulting claim does not clearly set forth the metes and bounds of the patent protection desired. See MPEP § 2173.05(c). Note the explanation given by the Board of Patent Appeals and Interferences in Ex parte Wu, 10 USPQ2d 2031, 2033 (Bd. Pat. App. & Inter. 1989), as to where broad language is followed by "such as" and then narrow language. The Board stated that this can render a claim indefinite by raising a question or doubt as to whether the feature introduced by such language is (a) merely exemplary of the remainder of the claim, and therefore not required, or (b) a required feature of the claims. Note also, for example, the decisions of Ex parte Steigewald, 131 USPQ 74 (Bd. App. 1961); Ex parte Hall, 83 USPQ 38 (Bd. App. 1948); and Ex parte Hasche, 86 USPQ 481 (Bd. App. 1949). In the present instance, claim 21 recites the broad recitation hyperlipidaemias and the claim also recites dyslipidaemias, which is a type of hyperlipidaemia and the narrower statement of the range/limitation.

Claim 21 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Specifically, the additional agent useful in the treatment of

atherosclerosis has not been clearly defined in the specification to know what agents are encompassed by the limitation.
